

Expression of Interest Form privacy notice

Data protection

In the course of completing this form, you have provided information about yourself ('personal data'). We (the University of Oxford) are the 'data controller' for this information, which means we decide how to use it and are responsible for looking after it in accordance with the General Data Protection Regulation and associated data protection legislation.

How we use your data

We will use your data to register your interest in becoming a Patient and Public Involvement (PPI) contributor for this research project. The personal data will be used to contact you in the future about the project, to arrange meetings and where you are selected to become a PPI coordinator, to correspond with you about reviewing documents.

We are processing your data for these purposes only because you have given us your consent to do so, by ticking the appropriate box. You can withdraw your consent at any time by contacting us at shona.kirtley@csm.ox.ac.uk. In this event, we will stop the processing as soon as we can. However, this will not affect the lawfulness of any processing carried out before your withdrawal of consent. We will only use your data for the purposes for which we collected it, unless we reasonably consider that we need to use it for another related reason and that reason is compatible with the original purpose. If we need to use your data for an unrelated purpose, we will seek your consent to use it for that new purpose.

Who has access to your data?

Access to your data within the University will be provided to those who need to view it as part of their work in carrying out the purposes described above.

We use Microsoft 365 tools in order to collect your data (Microsoft Forms) and to contact you (Microsoft Outlook). These companies are required to take appropriate security measures to protect your data in line with our policies. We do not allow them to use your data for their own purposes. We permit them to process your data only for specified purposes and in accordance with our instructions. Where we share your data with a third party, we will seek to share the minimum amount necessary.

Retaining your data

We will retain your data for the duration of the research project (the project is expected to last 2 years). There may be further opportunities to become involved again, if you should wish, towards the end of the study but we will provide you further information about this should the opportunity arise and seek your consent before using your data for any new purpose.

Security

Your data will be held securely in accordance with the University's policies and procedures. Further information is available on the [University's Information Security website](#).

Where we store and use your data

We store and use your data on University premises, in electronic form and on Microsoft 365 suite of tools (as described above).

Your rights

Information on your rights in relation to your personal data are explained [here](#).
