

## OP Non-STOP: **O**perative or **N**ON-Surgical **T**reatment **O**f **P**erthes' disease

### Collaborator Agreement

*This document details the agreement between Oxford Trauma & Emergency Care (OTEC) and OP Non-STOP Collaborators*

- OTEC values the role clinical staff can have in research.
- OTEC seeks to involve orthopaedic trainees, ED trainees, specialist nurses, physiotherapists and consultants in all studies where possible.
- OTEC commits, alongside site staff and R&D departments, to confirm evidence of participation in studies as part of CPD.
- OTEC intends to name individuals who can demonstrate these criteria as named PubMed collaborators on submitted manuscripts. This will be subject to journal policy. Collaborators will be acknowledged in the primary clinical paper unless otherwise stated.

The criteria for determining an individual's collaborator status are:

Activity	Points	Evidence/ suggestions
Setup	Up to 2 points	- Initial OPNon-STOP contact at site - Recruit a Principal Investigator - Return SFQ - Site induction visit attendance
GRANULE Course	2	- GRANULE Certificate (available to complete online at NIHR Learn) <a href="https://learn.nihr.ac.uk/">https://learn.nihr.ac.uk/</a> and register using an NHS e-mail address.
Consent & Randomisation	5	- Recruitment Certificate(s)
Training a colleague to recruit	0.5/colleague (Max 3 points)	- Updated training & delegation logs in REDCap
Delivering the initial therapy intervention (physiotherapists)	3.5 points	-Updated intervention delivery log on RedCap
Completion of the Associate PI Programme	3 points	NIHR API Certificate

**10 points and above – named PubMed collaborator**

**Note:** *It is your responsibility to present evidence to the Trial Team when you accumulate 10 points or more.*
