OXFORD TRAUMA & EMERGENCY CARE | NDORMS

Oxford Trauma and Emergency Care Patient and Public Involvement Newsletter

Issue 006, August 2023

News from the team

We're very busy at the moment —and several of our trials are close to finishing recruitment! Several new trials are also being set up. Watch this space for global health, kids trauma, rehab, new WHiTE trials and more!

Thank you as always for the invaluable input—we are so grateful to all the hard work you put in. Our ethos is to include PPI input at all stages of our research, and you make this possible with your enthusiasm, wisdom and fresh views.

Upcoming events

Meet the researcher (Open Arms)

Date: Monday 25th September 2023, 1.00-2.00pm

Location: Zoom / Botnar Institute for Musculoskeletal Sciences, Windmill Road, Oxford, OX3 7LD

Content: There will be talks by Gastroenterologists, who will speak about their research into gut conditions. Prof Chris Buckley will introduce the session "Reaching for the Stars", and outline the importance of the research being done into gut conditions. Alissa Walsh will discuss "The Future is Now: TrueColours - Inflammatory Bowel Disease. How remote monitoring is transforming patient care and research". Julia Pakpoor will be speaking about her research "Sagittarius - Using Science to Predict Response to Therapy". In the third talk, Matthias Friedrich will present "A Chron's and Colitis UK project - next steps in the development of personalised care".

Booking: Please book your place using this link <https://forms.office.com/e/vfFaXaYd6h>

Online participants will receive a link for viewing after registering.

Light refreshments will be provided from 12:30 pm for those attending in person.

Payment: Unfortunately there is no payment available for this event.
